1. INTRODUCTION AND TEST OBJECTIVES

1.1 INTRODUCTION

This Technical Note is intended to define the Ground test requirements to be performed previous to the conversion of the a/c into MRTT Military Version in order to obtain from the EASA the STC for the Civil Version of the A330-200 MRTT for the RAAF.

These tests will be done to cover the modifications of those systems that belong to ATA35.

This document has been elaborated according to Test Program Plan DT-FA-SGE-06004.

As stated in the above mentioned TPP, all tests required are covered through the Acceptance Tests (to be performed on all the MSNs). Therefore, there are no specific GND Test Requirements foreseen to be included in this document.
